The minimum to open a 'My Choice CD' and earn the annual percentage yield is \$1,000. The interest rate is calculated according to the term you select and is .75% greater for clients with multiple products, one of which must be an active checking account or other transaction account that has payroll, pension, or social security direct deposit or have at least 4 bill pay or ACH debits per month. ¹You may increase the rate one time during the term; the initial interest rate will remain the same unless you opt to increase it. ²You may add money one time during the original term. We use the Daily Balance Computation Method to calculate interest on your account, which applies a daily periodic rate to the principal in the account each day. Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items, for example, checks. Interest will be compounded and paid quarterly. Penalty for early withdrawal; fees may reduce earnings. Limited time offer.
