

# Verifone VX 520

## Compact, powerful, future-proof terminal

Reliable, rugged and secure, the VX 520 from Verifone® is an all-in-one countertop device built to last. Certified to process EMV chip cards and to support contactless payments. The VX 520 packs a lot of power into a smart, ergonomic design to help speed up the checkout process.

### Easy to use

- › Provides a full set of payment capabilities (magstripe, EMV chip & PIN, contactless)
- › Accept all major card brands, debit cards, and EBT
- › Designed to easily pass from clerk to customer for secure PIN entry or compatible with customer facing VX 805 PIN pad

### Compact and user-friendly design

- › Backlit screen and keypad ideal for all lighting situations
- › Unique design keeps countertops free of clutter
- › Maximize counterpace with compact device and built-in printer

### Compliant and secure

- › EMV chip card technology reduces counterfeit card fraud
- › PCI PIN Transaction Security 3.x standards to protect cardholder data
- › 3DES and TLS encryption with securely signed application to ensure transactions are protected

### Proven performance

- › Powerful internal processor and broadband connectivity to speed up transaction times
- › IP connectivity options with dial backup
- › Backlit keypad designed to withstand 1 million key presses
