

SwipeSimple

Accept Card Payments On-the-Go

SwipeSimple is a mobile point-of-sale solution that enables businesses to quickly and securely accept credit, debit and cash payments from any smartphone or tablet, anywhere.

Fast and Easy Checkout

Set up purchases in seconds and take card and cash payments quickly from within the app. Select items for purchase, or simply enter the sale amount. Customers sign and tip on the mobile device and receive receipts through text or email.

An optional EMV-certified card reader securely captures payment information and helps protect you from chargebacks related to the liability shift.

Manage Your Business in the Cloud

Log into the SwipeSimple Dashboard to manage transactions, import and edit inventory items, customize receipts, and add tip and tax options. See what's selling where with real-time reporting and analytics tools.
